

## Implementation report format

The format below follows the structure of the *CITES Strategic Vision: 2021-2030* and aims to collect information to enable the Strategic Vision indicators to be monitored.

### **CITES vision statement**

By 2030, all international trade in wild fauna and flora is legal and sustainable, consistent with the long-term conservation of species, and thereby contributing to halting biodiversity loss, to ensuring its sustainable use, and to achieving the 2030 Agenda for Sustainable Development.

Article VIII, paragraph 7 (b), of the Convention requires each Party to submit to the CITES Secretariat a report on legislative, regulatory and administrative measures taken to enforce the provisions of the Convention.

The report format allows Parties to present information in a standard manner, so that it can be easily collated, with three main objectives:

- i) To enable monitoring of the implementation and effectiveness of the Convention;
- ii) To facilitate the identification of major achievements, significant developments, or trends, gaps or problems and possible solutions; and
- iii) Provide a basis for substantive and procedural decision-making by the Conference of the Parties and various subsidiary bodies.

The questions of the implementation report follow the structure of the *Strategic Vision 2021-2030* and its indicators that are mapped against the Sustainable Development Goals and the Kunming-Montreal Global Biodiversity Framework to ensure synergies and consistent reporting.

Information on the nature and extent of CITES trade should be incorporated into the annual report [Article VIII paragraph 7 (a)], whereas the report provided under Article VIII paragraph 7 (b) should focus on measures taken to implement the Convention.

The report should cover the period indicated in [Resolution Conf. 11.17 \(Rev. CoP19\)](#) which urges that the report should be submitted to the Secretariat on 31 October of the year before each meeting of the Conference of the Parties (CoP). The reason for setting the report to be due a year in advance of the following CoP is to allow information to be collated so it can be considered by the Standing Committee in advance of CoP, and enable publication of the Strategic Vision indicators in advance of CoP.

Reports should be prepared in one of the three working languages of the Convention (English, French, Spanish).

Parties are *strongly* encouraged to prepare and submit their reports in electronic form and to **answer at a minimum all questions in bold**. This will facilitate timely integration of information from Parties into publication of the Strategic Vision Indicators. If reports are only provided in hard copy, resources will be needed at the Secretariat to make an electronic copy, and this is not good use of Secretariat resources.

The completed report should be sent to:

Palais des Nations  
Avenue de la Paix 8-14

**GOAL 1      TRADE IN CITES-LISTED SPECIES IS CONDUCTED IN FULL COMPLIANCE WITH THE CONVENTION IN ORDER TO ACHIEVE THEIR CONSERVATION AND SUSTAINABLE USE**

Objective 1.1      Parties comply with their obligations under the Convention through the adoption and implementation of appropriate legislation, policies, and procedures.  
[SDG Goals 12, 14 & 15](#)  
[GBF Goal A & Targets 4, 5, 9 & 10](#)

Indicator 1.1.1:      Number of Parties that are in category 1 under the national legislation project.  
*(Data source: National Legislation Project)*

1.1.1a	<p>Have any CITES relevant policies or legislation been developed during the period covered in this report?      Yes <input checked="" type="checkbox"/> No <input type="checkbox"/></p> <p>If 'Yes', have you shared information with the Secretariat? Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Applicable <input type="checkbox"/></p> <p>If 'No', please provide details to the Secretariat with this report:</p>
1.1.1b	<p>Does your legislation or legislative process allow easy amendment of your national law(s) to reflect changes in the CITES Appendices (e.g. to meet the 90 day implementation guidelines)?      Yes <input checked="" type="checkbox"/> No <input type="checkbox"/></p> <p>If 'No', please provide details of the constraints faced:</p>

Indicator 1.1.2:      Number of Parties subject to CITES recommendations to suspend trade.  
*(Data source: Notifications to the Parties and reference list of countries subject to a recommendation to suspend trade)*

Objective 1.2      Parties have established CITES Management and Scientific Authorities and enforcement focal points that effectively carry out the duties required of them under the Convention and relevant Resolutions.

Indicator 1.2.1:      Number of Parties that have designated at least one Management Authority, independent Scientific Authority and enforcement focal points in place.  
*(Data source: CITES online directory)*

Objective 1.3      Implementation of the Convention at the national level is consistent with Resolutions and Decisions adopted by the Conference of the Parties.  
[SDG Goals 12, 14 & 15](#)  
[GBF Goal A & Targets 4, 5, 9, 10 & 15](#)

Indicator 1.3.1:      Number of Parties that have implemented relevant reporting under Resolutions and Decisions of the Conference of the Parties and/or Standing Committee recommendations.

1.3.1a	<p><b>Has your country responded to all relevant special reporting requirements that are active during the period covered in this report, including those in the Resolutions and Decisions of the Conference of the Parties, Standing Committee recommendations, and Notifications issued by the Secretariat (see [link to location on the CITES website where the reporting requirements are listed])?</b></p>
--------	---

	<b>Responses provided to ALL relevant reporting requirements</b> <input type="checkbox"/> <b>Responses provided to SOME of the relevant reporting requirements</b> <input checked="" type="checkbox"/> <b>Responses provided to NONE of the relevant reporting requirements</b> <input type="checkbox"/> <b>No special reporting requirements applicable</b> <input type="checkbox"/>
1.3.1b	Were any difficulties encountered during the period covered in this report in implementing specific Resolutions or Decisions adopted by the Conference of the Parties? Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> If 'Yes', please provide details of which Resolution(s) or Decision(s), and, for each, what difficulties were / are being encountered?

Objective 1.4 The Appendices correctly reflect the conservation status and needs of species.

SDG Goal 15

GBF Goal A & Targets 4 & 5

Indicator 1.4.1: The number and proportion of species listed in Appendices that have been found to meet the criteria for each Appendix contained in Resolution Conf. 9.24 (Rev. CoP17) or its successors as part of the Periodic Review process or of amendment proposals

Objective 1.5 Parties improve the conservation status of CITES-listed specimens, put in place national conservation actions, support their sustainable use and promote cooperation in managing shared wildlife resources.

SDG Goals 2, 12, 14 & 15

GBF Goals A & B & Targets 4, 5, 9 & 10

Indicator 1.5.1: The conservation status of species listed on the CITES Appendices has stabilized or improved. (Data source: IUCN Red List conservation status categories)

1.5.1a (previously 3.4.1a)	<b>Does your country have data which shows that the conservation status of naturally occurring species in your country listed on the CITES Appendices has stabilized or improved?</b>

## GOAL 2 PARTIES' DECISIONS ARE SUPPORTED BY THE BEST AVAILABLE SCIENCE AND INFORMATION

Objective 2.1 Parties' non-detriment findings are based on best available scientific information and their determination of legal acquisition is based on the best available technical and legal information.  
[SDG Goals 12, 14 & 15](#)  
[GBF Targets 4, 5, 9 & 20](#)

Indicator 2.1.1: Number of Parties that have adopted standard procedures for making non-detriment findings (NDFs).

	Yes	No	No information	
<b>2.1.1a</b> (previously 1.5.2a)	<b>Does your country have standard procedures for making non-detriment findings in line with <a href="#">Resolution Conf. 16.7 (Rev. CoP17)</a>?</b>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<p>If 'Yes', please briefly describe your procedures for making non-detriment findings, or attach as an annex to this report, or provide a link to where the information can be found on the internet:</p> <p>CNSA has developed a standard procedure for making NDF. Firstly, we ask the importer or exporters to provide detailed information, and if needed, we will do field survey, then we rely on experts to give us professional suggestions. We will consult with other SA if needed. We have done NDF case by case.</p>				
<b>2.1.1b</b> (previously 1.5.2b)	<p>When establishing non-detriment findings, have any of the following guidance been used?</p> <p style="text-align: right;">Please tick all that apply</p> <div style="display: flex; justify-content: flex-end;"> <div style="margin-right: 20px;">Virtual College</div> <input checked="" type="checkbox"/> </div> <div style="display: flex; justify-content: flex-end;"> <div style="margin-right: 20px;">IUCN Checklist</div> <input checked="" type="checkbox"/> </div> <div style="display: flex; justify-content: flex-end;"> <div style="margin-right: 20px;">Resolution Conf. 16.7</div> <input checked="" type="checkbox"/> </div> <div style="display: flex; justify-content: flex-end;"> <div style="margin-right: 20px;">2008 NDF workshop</div> <input checked="" type="checkbox"/> </div> <div style="display: flex; justify-content: flex-end;"> <div style="margin-right: 20px;">Species specific guidance</div> <input checked="" type="checkbox"/> </div> <div style="display: flex; justify-content: flex-end;"> <div style="margin-right: 20px;">Other</div> <input checked="" type="checkbox"/> </div> <p>If 'Other' or 'Species specific guidance', please specify details:</p> <p>We used several species-specific guidance from the CITES NDF database and the 2023 international NDF workshop.</p>

	<i>Nardostachys grandiflora</i>	From 2021 to 2023, research teams guided by CNSA completed field surveys of wild population of <i>Nardostachys grandiflora</i> in alpine meadows across five counties in the northwestern Sichuan region of the eastern Qinghai-Tibet Plateau in China. Important ecological information such as population density, habitat characteristics, and environmental factors was obtained, and preliminary speculations were made about population numbers and trends. An investigation into the impact of trade on local wild populations was conducted, with the establishment of permanent plots to monitor the effects of harvesting. The long history of <i>Nardostachys grandiflora</i> harvest in the area, the widespread participation of local residents in harvest practices, and the methods, seasons, and local traditional knowledge associated with

	If 'Yes', please elaborate on the types of activities taken:			

Objective 3.7 Investments in building capacity of CITES are prioritized, coordinated, and their success monitored to ensure stepwise improvement through time.

<sup>1</sup> International cooperation in criminal matters includes legislation through which a formal request for mutual legal assistance and/or extradition of a person for criminal prosecution can be forwarded to another country.

<sup>2</sup> Article 2, paragraph (a) of the United Nations Convention against Transnational Organized Crime defines an organized criminal group as a structured group of three or more persons, existing for a period of time and acting in concert with the aim of committing one or more serious crimes or offences established in accordance with the Convention, in order to obtain, directly or indirectly, a financial or other material benefit.

<sup>3</sup> Specialized investigation techniques are techniques that are deployed against serious and/or organized crime when conventional law enforcement techniques fail to adequately address the activities of crime groups. Examples include controlled deliveries and covert operations.
