

Implementation report format

The format below follows the structure of the *CITES Strategic Vision: 2021-2030* and aims to collect information to enable the Strategic Vision indicators to be monitored.

CITES vision statement

By 2030, all international trade in wild fauna and flora is legal and sustainable, consistent with the long-term conservation of species, and thereby contributing to halting biodiversity loss, to ensuring its sustainable use, and to achieving the 2030 Agenda for Sustainable Development.

Article VIII, paragraph 7 (b), of the Convention requires each Party to submit to the CITES Secretariat a report on legislative, regulatory and administrative measures taken to enforce the provisions of the Convention.

The report format allows Parties to present information in a standard manner, so that it can be easily collated, with three main objectives:

- i) To enable monitoring of the implementation and effectiveness of the Convention;
- ii) To facilitate the identification of major achievements, significant developments, or trends, gaps or problems and possible solutions; and
- iii) Provide a basis for substantive and procedural decision-making by the Conference of the Parties and various subsidiary bodies.

The questions of the implementation report follow the structure of the *Strategic Vision 2021-2030* and its indicators that are mapped against the Sustainable Development Goals and the Kunming-Montreal Global Biodiversity Framework to ensure synergies and consistent reporting.

Information on the nature and extent of CITES trade should be incorporated into the annual report [Article VIII paragraph 7 (a)], whereas the report provided under Article VIII paragraph 7 (b) should focus on measures taken to implement the Convention.

The report should cover the period indicated in [Resolution Conf. 11.17 \(Rev. CoP19\)](#) which urges that the report should be submitted to the Secretariat on 31 October of the year before each meeting of the Conference of the Parties (CoP). The reason for setting the report to be due a year in advance of the following CoP is to allow information to be collated so it can be considered by the Standing Committee in advance of CoP, and enable publication of the Strategic Vision indicators in advance of CoP.

Reports should be prepared in one of the three working languages of the Convention (English, French, Spanish).

Parties are *strongly* encouraged to prepare and submit their reports in electronic form and to **answer at a minimum all questions in bold**. This will facilitate timely integration of information from Parties into publication of the Strategic Vision Indicators. If reports are only provided in hard copy, resources will be needed at the Secretariat to make an electronic copy, and this is not good use of Secretariat resources.

The completed report should be sent to:

GOAL 1 TRADE IN CITES-LISTED SPECIES IS CONDUCTED IN FULL COMPLIANCE WITH THE CONVENTION IN ORDER TO ACHIEVE THEIR CONSERVATION AND SUSTAINABLE USE

Objective 1.1 Parties comply with their obligations under the Convention through the adoption and implementation of appropriate legislation, policies, and procedures.

Indicator 1.1.1: Number of Parties that are in category 1 under the national legislation project.

1.1.1a	<p>Have any CITES relevant policies or legislation been developed during the period covered in this report? Yes x No <input type="checkbox"/></p> <p>If 'Yes', have you shared information with the Secretariat? Yes <input type="checkbox"/> No xNot Applicable <input type="checkbox"/></p> <p>If 'No', please provide details to the Secretariat with this report:</p> <p>2021</p> <p><i>Following CITES CoP18 (Geneva, 2019), the European Commission adopted on 16/12/2021 Commission Regulation (EU) 2021/2280 to incorporate the changes flowing from the decisions taken in the relevant legislation at the EU level. The Regulation entails changes to the Annexes to Council Regulation (EC) 338/97 as well as Commission Regulation (EC) No 865/2006.</i></p> <p><i>To implement Resolution Conf. 10.10 (Rev. CoP18), the EU introduced a more restrictive ivory trade regime. In this context, the exemption for internal trade with antiques containing ivory without a certificate was repealed. Accordingly, a certificate is now required for trade of ivory in any case. To allow stricter control of internal trade in objects consisting of ivory, an expiry date for certificates issued for all ivory objects was introduced. In addition, the European Commission revised the Guidance document on the EU regime governing trade in ivory. As a result, import and export of raw ivory to and from the EU are prohibited entirely, whereas internal trade is only allowed for specific purposes (repairing pre-1975 musical instruments and pre-1947 antiques of high cultural, artistic or historical importance held by a museum). Regarding worked ivory, export and import are only allowed for pre-1975 musical instruments and pre-1947 antiques sold to museums, internal trade only with objects acquired before 1947 and pre-1975 musical instruments.</i></p> <p>2022</p> <p><i>On 11/08/2022, the Commission adopted a Guidance document on live animals bred in captivity under the EU Wildlife Trade Regulations.</i></p> <p><i>On 09/11/2022, the European Commission adopted a revised EU Action Plan against wildlife trafficking to strengthen the EU action against the illegal trade in wildlife, both in the EU and internationally. The revised action plan is built around four priorities including 17 objectives and 69 actions: (1) Preventing wildlife trafficking and addressing its root causes; (2) strengthening the legal and policy framework against wildlife trafficking; (3) enforcing regulations and policies to fight wildlife trafficking effectively; (4) strengthening the global partnership of source, consumer and transit countries against wildlife trafficking.</i></p> <p>2023</p> <p><i>Following CITES CoP19 (Panama, 2022), the Commission adopted on 15/05/2023 the revised Annexes to Council Regulation (EC) No 338/97.</i></p> <p><i>On 12/12/2023, the Commission adopted Commission Implementing Regulation (EU) No 2023/2770 (Suspension Regulation) , amending the list of species of which import to the EU is prohibited.</i></p>
--------	--

	Moreover, the European Commission adopted on 18/04/2023 a Guidance document on the export, re-export and intra-EU trade of captive-born and bred live tigers and their parts and derivatives (2023/C 135/01). The objective of the Guidance is to increase controls on the commercial trade of live captive-bred tigers and their parts and derivatives. The EU Member States are encouraged not to grant export, re-export or intra-EU trade certificates. Exemptions are only possible under specific circumstances if the purposes are not detrimental to the conservation of the species.
1.1.1b	Does your legislation or legislative process allow easy amendment of your national law(s) to reflect changes in the CITES Appendices (e.g. to meet the 90 day implementation guidelines)? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> If 'No', please provide details of the constraints faced: After every CITES CoP, the EU incorporates the changes in the CITES Appendices in the relevant legislation at EU level (Council Regulation (EC) 338/97). Albeit a simplified procedure, it is challenging to meet the 90 days deadline given lengthy and punctual internal procedures at EU level. During the interim period and prior to the entry into force of the amended Regulation, EU Member States issue export and import permits directly based on the relevant provisions of the Convention.
