Animals Committee encourages Kenya and Namibia to continue and finalize their review and submit it as soon as possible to the Animals Committee for its consideration, including by postal procedure. Animals Committee appreciates greatly the responses received to date from Benin, Central Africa Republic, Côte d'Ivorie, Gabon, Kenya, Malawi, Mozambique, Nigeria, Namibia, Rwanda, South Africa, South Sudan, United Republic of Tanzania, Zambia, and Zimbabwe. Animals Committee urges range States that have not yet submitted information to Kenya and Namibia to do so.

- 2. The Animals Committee requests the Secretariat to include the following columns in future versions of the table "Overview of Species under Review" (at AC26, Doc. 13.1): Appendix on which the species is listed; IUCN category and assessment date; range States; and state of the review including: reviews completed, naming the Party who did the review; reviews ongoing (in progress), naming the Party who is doing the review; and reviews pending where a Party is needed to undertake the review.
- For future Notifications on Periodic Review, the Animals Committee requests the Secretariat to include a list of range States of species for which reviews are requested, as well as contact information for the relevant IUCN/SSC Specialist Group.

- 4. The Animals Committee requests the Secretariat to issue a Notification to the Parties with the list of species identified in the table above as "review needed", requesting volunteers to conduct the reviews.
- 5. The Animals Committee requests regional representatives to circulate periodic review requests to range States in their regions.
