

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES
OF WILD FAUNA AND FLORA

Sixty-fifth meeting of the Standing Committee
Geneva (Switzerland), 7-11 July 2014

POST-RIO+20 REVIEW OF ENVIRONMENTAL GOVERNANCE
WITHIN THE UNITED NATIONS SYSTEM:
SUPPLEMENTARY PAPER

This document is submitted by the Secretariat in relation to agenda item 8 on *Relationship with the United Nations Environment Programme*.

This paper contains graphics, table and documents based on background data and information which the Inspectors collected during the JIU “Post-Rio+20 review of environmental governance within the United Nations system” (JIU/REP/2014/4).

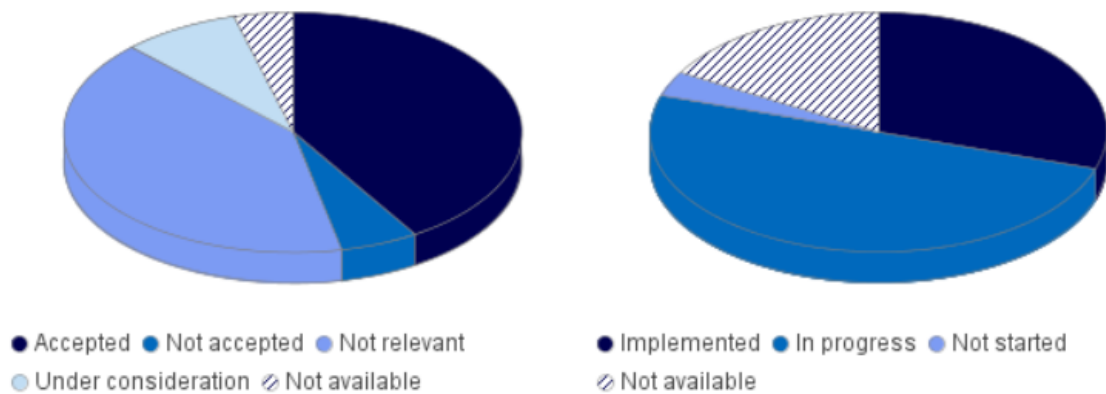

The Supplementary Paper was subject to factual comments by United Nations-system entities concerned prior to finalization. Thus, the data and information therein were verified or amended according to the comments received.

Table of contents

	<i>Page</i>
VIII Status of Acceptance and Implementation of JIU/REP/2008/3..	2
IX Environmental activities at regional/country level:	
A: In the United Nations specialized agencies and other relevant entities.....	3
B: In the United Nations funds & programmes and other relevant entities.....	4
X Contribution to Rio+20 outcome: value chain for sustainable development	
Part A: United Nations system entities	5
Part B: Multilateral Environmental Agreements	13
XI Principles, Policies and Guidelines for Normative and Operational Activities, and in-house Environmental Management of the United Nations System Organizations.....	21
XII Resources for environmental activities:	
United Nations Environment-related sectoral expenditures among operational activities for development in 2006-2010	27
XIII Statement of expenditure for the trust funds of the three Rio Conventions (2010-2011)	33
XIV Official meetings of Governing Bodies and subsidiary bodies in MEAs.....	34
XV Environmental dimension in selected UNDAFs (2008-2019)	35

Annex VIII: Status of Acceptance and Implementation of JIU/REP/2008/3
As of 31 December 2013

Acceptance	Number	Total	%	Implementation	Number	Total	%
Accepted	30	73	41.1	Implemented	9	30	30
Not accepted	4	73	5.48	In progress	15	30	50
Not relevant	30	73	41.1	Not started	1	30	3.33
Under consideration	6	73	8.22	Not available	5	30	16.67
Not available	3	73	4.11				

Source: JIU WBTS

ICAO

Support Member States through training workshops to develop National Action Plans to reduce CO₂ emissions in all ICAO regions.

UNITAR

Capacity-building on environmental law and climate change for negotiators in developing countries.

WHO

- Use of environmental and social safeguards to integrate environmental and occupational health considerations into programmes.
- Environmental and social assessment procedure used to screen project proposals
- Promotes health-related environmental standards worldwide.

IAEA

- Environmental monitoring, research and capacity building
- Participates in inter-agency efforts on sustainable development
- 3E analysis- role of nuclear energy for sustainable development
- Ocean Acidification International Cooperation Centre
- IWAVE project on water availability
- Green economy, Green energy

FAO

- Over 200 ongoing forestry projects in over 60 countries from 2010-2011 with a total budget of about USD 321 million.
- Climate Smart Agriculture projects in Malawi, Vietnam and Zambia.
- FAO's projects include GEF projects (pesticides, biodiversity, etc.), projects on livestock work and climate change projects."

UNIDO

- National Green Industry strategies
- Climate change mitigation and adaptation (transfer of low-carbon technologies, NCPC-RECP)
- Clean production centres
- Support to implementation of Montreal Protocol
- Promoting of sustainable tourism
- Sound management of waste and chemicals (e.g. Mercury, PCBs, HCFC, CFCs), implementing SAICM projects, facilitate implementation of Stockholm Convention.

WMO

- Works at both regional and national level to plan, implement and evaluate capacity development and technical assistance projects
- Green economy
- Monitors and reports on environmental parameters, supports the work of environmental conventions in countries

UNESCO

- Several environment-related projects are carried out at the national, sub-regional and regional levels (e.g. the MAB Comoé project developed jointly with UNEP for biodiversity conservation in West Africa); and actively involved in post-disaster programmes (e.g. the MERP Programme in the Asia-Pacific region).
- Responds to development and environmental issues using the framework of the UN Decade of Education for Sustainable Development (DESD)

IMO

Through Integrated Technical Cooperation Programme (ITCP), IMO implements capacity building activities. The MED implement majority of these activities directly, or through regional/global partners.

UPU

- Sustainable Development Fund for reduction of environmental impact of postal activities
- Regional conference and awareness raising seminars

UNU

Issues publications and research paper of interest for policy-makers at country and/or regional level.

UNWTO

- The Consulting Unit on Tourism and Biodiversity implements activities related to biodiversity conservation and raising awareness about mitigation and adaptation to climate change at country levels.
- The ST-EP projects up to 2013 have implemented 107 projects in the context of sustainable development in Africa, Middle-East, Asia, Europe and the Americas.

Annex IX - B: Environmental activities at regional/country level in the United Nations and its funds and programmes

SC65 Inf. 12

Annex

(English only /

Unicamentemente en inglés /
Seulement en anglais)

UNHCR

- Promotion of fuel-efficient stoves, solar cookers, ethanol stoves and alternative construction materials to reduce the stress on scarce wood resources surrounding the camps.
- Environmental education programme organized at several camps and local villages.
- A variety of clubs have been set up in most camps to provide participatory opportunities on issues that affect refugees' lives.

UN/OLA-DOALOS

- Capacity-development at regional level
- Reporting and assessment of Marine Environment
- Regional training on UNCLOS and Fish Stock Agreements
- Regional meetings of alumni UN with Nippon Foundation of Japan Fellowship Programme

UNICEF

- Support capacity building for climate adaptation in key sectors, regions, and countries.
- Activities at regional/country on environmental issues such as water quality, waste, and renewable/clean energy for health, education and water."

WFP

- Integrates environmental issues related to natural resource management through its FFA activities in countries.
- Development of EMS for WFP operations

UNEP

- Focal point in the UN system for system-wide strategies on environment
- Normative entity on environmental issues
- Host of a number of MEAs
- Promoting partnerships within and outside of the UN system to achieve sustainable development
- All thematic areas of Rio+20

UNFPA

- Manual and web platform on census analysis for climate and environment
- Guidance notes on population dynamics and adaptation to climate change
- Linking population dynamics, environmental sustainability and sustainable development

UNCTAD

- Developed national & regional programmes in Asia, Africa, & Latin America.
- Assists developing countries in the policy analysis on biofuels as an option for achieving energy security & SDGs.
- Part of an inter-agency team to enhance organic agriculture development in Lao PDR.

UNODC

Project to combat environmental crime, supported by the World Bank, to promote capacity building of national agencies and relevant institutions in East African and South-East Asian regions and Latin America.

UN Women

- Training programmes for women on energy use efficiency (Latin America, Africa, Asia)
- Gender mainstreaming in environmental norms collaborating with Rio Convention
- Mainstreaming gender/sustainability in UNDAF
- Green economy/ SEED initiative gender equality award

UNAIDS

- Provide guidance on climate change adaptation and Disaster Risk Reduction.
- UNAIDS/NEPAD implement activities at the regional level to advance sustainable responses to HIV/AIDS, health and development across the Africa.

UN-Habitat:

- Serves Interagency Coordination Group of 10YFP Sustainable Consumption and Production
- Partner to the Global Initiative for Resource-Efficient Cities (GI-REC)
- Policy guidance and capacity building on cities and climate change

Regional Commissions

- Participate in the dialogue on post-MDG 2015
- Sustainable energy/ UN Energy (with UNIDO and DESA)
- Green economy
- Hosts MEAs (UNECE, air pollution, chemicals, etc.)
- Climate change, forests, biodiversity
- Promoting Energy Efficiency Investments for Climate Change Mitigation and Sustainable Development (UNESCAP)
- Environment for Europe (UNECE)

UNDP

- 6,000+ development projects in 177 countries, mostly implemented at the country level. 16% of these projects (i.e. 1248) focused on Environment & Energy for Sustainable Development.
- Building capacities in country teams in developing countries for integrating environmental issues into development plans.

UN DESA

- Implements capacity development projects in sustainable developments that have environmental components (e.g. Grenada, Guatemala, Bolivia)
- Supports Small Island Developing States in making national preparations for the Third International Conference on SIDS

UNOPS

- Large scale and small grants projects on environmental sustainability, worth more than \$100 million annually, are executed in over 120 countries worldwide.
- Helps address environmental concerns by focusing on building national capacities for environmental management and raising local, regional and global awareness.

Annex X – A: Results of the JIU Survey on contribution of JIU participating organizations to Rio+20 Action areas

Annex XI

Principles, Policies and Guidelines for Normative and Operational Activities, and in-house Environmental Management of the United Nations System Organizations

1. Principles, policies and guidelines based on intergovernmental legislation adopted by the governing bodies of United Nations system organizations

This section lists in-house environmental management instruments based on decisions adopted by United Nations system organizations.

Environmental management

- Plan of Implementation of the World Summit on Sustainable Development, Johannesburg 26 August – 4 September 2002 (JPOI, chapter III, paragraph 14)
- Environmental Management and Sustainable Development - IFAD Environmental and Social Assessment Procedures (IFAD, 2008)
- Environment and natural resource management policy (IFAD, 2012)¹
- Environmental Management Tool Kit for Obsolete Pesticides (FAO);

Environmental Impact Assessment

- Implementation of Environmental Screening and Environmental Impact Assessment for UNDP Projects: Guidance Note (UNDP, 2009)²

Guidelines and codes of conduct

- Guidelines for field projects (FAO, 2012)³
- EIA for Small-Scale Irrigation;
- International Code of Conduct on the Distribution and Use of Pesticides (FAO);
- On fisheries (FAO):
 - ✓ Precautionary approach to fisheries management;
 - ✓ Code of Conduct for Responsible Fisheries Management;
 - ✓ Ecosystem Approach to Fisheries;
- On Forests:
 - ✓ Voluntary Guidelines for the Responsible Management of Planted Forests;
 - ✓ Planted forests in sustainable forest management;
 - FAO Model Code of Forest Harvesting Practice;

Environmental and Social safeguards frameworks and policies

GEF Policy on Agency minimum standards on environmental and social safeguards. This is of mandatory use by all GEF implementing agencies⁴, except the World Bank which has developed

¹ http://www.ifad.org/climate/policy/enrm_e.pdf

² The UNDP secretariat informed the Inspectors of 34 documents under the title of “UNDP Key Guidance Related to Environmental Mainstreaming” in national development planning processes which provide practical knowledge on the application of environmental norms and regulations to UNDP projects for the use of their developers and implementing partners and stakeholders.

³ <http://www.fao.org/docrep/016/i2802e/i2802e.pdf>

its own ones (GEF/C.41/10/Rev.1, November 18, 2011, approved by Council Meeting)⁵. The compliance with these standards concerns the following organizations: UNDP, UNEP, FAO, UNIDO, IFAD, and banks: WB, AfDB, ADB, EBRD and IDB.

UNDP (March 2012) Guidance Note: Environmental and social screening procedure for UNDP projects.

Compliance with MEAs

UNEP (2006) Manual on compliance with and enforcement of Multilateral Environmental Agreements⁶

Procurement

- United Nations Guidelines for Consumer Protection (as expanded in 1999) (22 December 1999)
- General Assembly resolution 59/250, paragraph 36. on harmonization of procurement practices among organizations in “Triennial comprehensive policy review of operational activities for development of the United Nations system” (22 December 2004)
- Consolidated List of Products Whose Consumption and/or Sale have Been Banned, Withdrawn, Severely Restricted or Not Approved by Governments. (UN-DESA, 1st issue in 1984 to 11th and 12th issues in 2005)

2. Inter-agency and internal principles, policies and guidelines of United Nations system organizations

This section lists the in-house environmental management instruments of United Nations system organizations resulting from inter-agency consultations or internal processes.

Environmental management

-
- “Environmental Operational Guide” for Post (UPU, 1999)
- UN DESA (2001) Environmental Management Accounting: Procedures and principles
- UN DESA (2001) Environmental Management Accounting: Policies and linkages⁷Environmental Guidelines (UNHCR, 1996, revised 2005)
- Guidelines for Drinking-water Quality, 3rd (current) edition (WHO, 2008)
- Planning for Change: Guidelines for National Programmes on Sustainable Consumption and Production (UNEP, 2008)

**Annex XIII: Statement of expenditure for the biennium 2010-2011 ending 31 December 2011
regarding the trust funds of the three Rio Conventions**

Expenditures (in thousand USD) As of 31 December 2011	
CBD	
General Trust Fund for the Convention on Biological Diversity (BY Trust Fund)	1,562
General Trust Fund for Additional Voluntary Contributions in Support of Approved Activities under the Convention on Biological Diversity (BE Trust Fund)	10,349
General Trust Fund for Additional Voluntary Contributions to Facilitate the Participation of Parties in the Process of the Convention on Biological Diversity (BZ Trust Fund)	1,160
General Trust Fund for Voluntary Contributions to Facilitate the Participation of Indigenous and Local Communities in the Work of the Convention on Biological Diversity (VB Trust Fund)	208
General Trust Fund for the Cartagena Protocol on Biosafety (BG Trust Fund)	1,247
Special Voluntary Trust Fund for Additional Voluntary Contributions in Support of Approved Activities under the Cartagena Protocol on Biosafety (BH Trust Fund)	568
Special Voluntary Trust Fund for Facilitating Participation of Developing Parties, in particular the Least Developed and the Small Island Developing States amongst them, and Parties with Economies in Transition in the Cartagena Protocol on Biosafety (BI Trust Fund)	186
Sub-total CBD	15,280
UNFCCC	
Trust Fund for the Core Budget of the UNFCCC	58978
Trust Fund for Participation in the UNFCCC Process	14837
Trust Fund for Supplementary Activities	42378
Trust Fund for the Clean Development Mechanism	66168
Trust Fund for the International Transaction Log	6695
Trust Fund for the Special Annual Contribution from the Government of Germany	5028
Sub-total UNFCCC	194,084
UNCCD	
Trust Fund for the Core Budget of the United Nations Convention to Combat Desertification	22,986
Trust Fund for Participation of Representatives of Eligible Parties in the Sessions of the UNCCD Conference	2,013
Trust Funds for Voluntary Financing of Activities under the UNCCD	5,540
Trust Fund for Convention Events Organized by the UNCCD Secretariat (the Bonn Fund)	1,451
Sub-total UNCCD	31,990
GRAND TOTAL	241,354

Annex XV: Environmental dimension in selected UNDAFs (2008-2019)

Country & URL	Environment Mainstreamed into Priorities/Outcomes
Papua New Guinea, 2012-2015 http://www.undg.org/docs/12714/UNDAF-(2012---2015)_-Papua-New-Guinea.pdf	One of four clusters of strategic focus: “Environment, Climate Change & Disaster Risk Management”
Bhutan, 2008-2012 http://www.undg.org/docs/7395/Bhutan_UNDAF_2008_20012.pdf	One of five priority areas: “Environment and Disaster Management”; “UNDAF OUTCOME FIVE: By 2012, national capacity for environmental sustainability and disaster management strengthened. (MDG 7)”
Maldives, 2011-2015 http://www.undg.org/docs/11587/UNDAF-2011-20015_LR.pdf	One of eight UNDAF outcomes: “Environment, Climate Change and Disaster Risk Reduction”
Mongolia, 2012-2016 http://www.undg.org/docs/12197/UNDAF-2012-2016.pdf	Cross-cutting issue listed: “To reduce vulnerabilities and increase resilience, climate change and disaster risk-reduction will be mainstreamed into all programmes and at all levels”; Priority 3 is “Environment, climate change and disaster risk reduction”.
China, 2011-2015 http://www.undg.org/docs/11314/UNDAF-2011-2015-(China).pdf	One of three UNDAF outcomes: “Government and other stakeholders ensure environmental sustainability, address climate change, and promote a green, low carbon economy.”
Namibia, UNPAF 2014-2018 http://www.mu.undp.org/content/dam/namibia/docs/legalframework/undp_na_UNPAF_26%20July%202013.pdf	“Namibians at all levels (using products, services, and programmes of the UN as/when appropriate) are constructively engaged in the implementation of interventions aimed at addressing economic and social inequalities in an environmentally sustainable manner, thus contributing to dignity, peace and prosperity, and the full realization of human rights.” Outcome 6: has accountable and well-coordinated multi-sectoral mechanisms to reduce the burden of priority diseases and conditions, address social, economic and environmental determinants of health, and improve health outcomes Outcome 12: has in place the institutional frameworks and policies needed to implement the Environmental Management Act (2007), National Climate Change Policy (2011) and international conventions, and is implementing effectively.
Rwanda, 2013-2018 http://www.undg.org/docs/13307/RWANDA-	One of the UNDAF outcomes: “Rwanda has in place improved systems for: sustainable management of the environment, natural resources and renewable energy

UNDAP-REPORT.PDF	resources, energy access and energy security, to achieve greater environmental and climate change resilience in line with Rio+20 recommendations on Sustainable Development”.
Malawi, 2012-2016 http://www.undg.org/docs/12367/UNDAF-Malawi--2012---2016.pdf	Sustainability is one of 5 Strategic Development Priorities. Climate change and natural resources, environmental sustainability embedded in the 10 strategic policy messages.
Botswana, 2010-2016 http://www.undg.org/docs/10552/Botswana-UNDAF-2010-2016.pdf	UNDAF Outcome 4: By 2016, the rural poor, especially women, enjoy greater benefits from the environment and natural ecosystems. Country Programme Outcomes 4.1 Inclusive policy and institutional environment for sustainable natural resources management. 4.2 Enhanced capacity of communities for natural resources and ecosystem management and benefit distribution. 4.3 Enhanced national capacity for climate change adaptation and mitigation.
Moldova, 2013-2017 http://www.undg.org/docs/12424/United-Nations---Republic-of-Moldova-Partnership-Framework.pdf	One of three priority areas is “Pillar 3: Environment, Climate Change and Disaster Risk Management” with outcomes “Environment: Improved environmental management in increased compliance with international and regional standards”; “- Low Emission and Resilient Development: Strengthened national policies and capacities enable climate and disaster resilient, low emission economic development and sustainable consumption”.
Nicaragua, 2013-2017 http://www.undg.org/docs/13119/MANUD-2013-2017-%28Firmado-15-mayo-2013%29.pdf	One out of 4 outcomes (priority areas): “Environmental protection and disaster risk management”
Mexico, 2014-2019 http://www.undg.org/docs/12990/UNDAF-M%C3%A9xico-2014-2019_Firmado.pdf	One of 5 priority areas: Environmental sustainability and green economy
Chile, 2011-2014 http://www.undg.org/docs/11541/UNDAF-Chile-2011-2014.pdf	One of 5 priority areas: Climate change, environmental sustainability and energy
Belize, 2013-2016 http://www.undg.org/docs/12757/UNDAF-	One of 4 priority areas: Environmental and Natural Resource Management, Disaster Risk Reduction on and Climate Change

2013-2016.pdf	Mainstreamed into Public Policies and Development Processes
Cuba, 2008-2012 http://www.undg.org/docs/8685/MANUD---CUBA.pdf	One of 5 priority areas: Environment and energy

Source: Provided by UNDP to JIU in March 2014.
