

- IV APPENDICES TO THE CONVENTION

Interpretation:

1. Species included in these appendices are referred to:
 - a) by the name of the species; or
 - b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation "spp." is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only.
4. An asterisk (*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, sub-species or species of that taxon are included in Appendix I and that these populations, sub-species or species are excluded from Appendix II.
5. Two asterisks (**) placed against the name of a species or higher taxon indicate that one or more geographically separate populations, sub-species or species of that taxon are included in Appendix II and that these populations, sub-species or species are excluded from Appendix I.
6. The symbol (>) followed by a number placed against the name of a species or higher taxon designates parts or derivatives which are specified in relation thereto for the purposes of the Convention as follows:
 - > 1 designates roots
 - > 2 designates timber
 - > 3 designates trunks.
7. The symbol (-) followed by a number placed against the name of a species or higher taxon indicates the exclusion from that species or taxon of designated geo-

graphically separate populations, sub-species, species or groups of species as follows:

- 101 Panthera tigris altaica (=amurensis)
- 102 Australian population
- 103 Australian population
- 104 All species which are not succulent.

8. The symbol (+) followed by a number placed against the name of a species or higher taxon denotes that only designated geographically separate populations, sub-species or species of that species or taxon are included in the appendix in question as follows:
 - +201 Population of South America
 - +202 (A) North Pacific stock
 - (B) Stock in area from 0 degree longitude to 70 degree east longitude, from the Equator to the Antarctic Continent
 - +203 (A) Stock in North Atlantic off Iceland
 - (B) Stock in North Atlantic off Newfoundland
 - (C) Stock in area from 40 degrees south latitude to Antarctic Continent, from 120 degrees west longitude to 60 degrees west longitude
 - +204 Italian population
 - +205 All North American sub-species
 - +206 Australian population
 - +207 All New Zealand species
 - +208 All species of the family in the Americas.
9. The symbol (/) placed against the name of a species or higher taxon indicates that the species concerned are protected in accordance with the International Whaling Commission's schedule of 1972.

APPENDIX III
as at 4 February 1977

Interpretation:

1. Species included in this appendix are referred to:
 - a) by the name of the species; or
 - b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation "spp." is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only.
4. An asterisk (*) placed against the name of a species or higher taxon indicates that one or more geographically separate populations, sub-species or species of that taxon are included in Appendix I and that these populations, sub-species or species are excluded from Appendix III.
5. Two asterisks (**) placed against the name of a species or higher taxon indicate that one or more geographically separate populations, sub-species or species of that taxon are included in Appendix II and that these populations, sub-species or species are excluded from Appendix III.
6. The symbol (+) followed by a number placed against the name of a species or higher taxon denotes that only designated geographically separate populations, sub-species or species of that species or taxon are included in this appendix as follows:

+201 Costa Rica species.
7. The names of the countries placed against the names of species or higher taxa are those of the Parties submitting these species or higher taxa for inclusion in this appendix.
