The sanctuary is also one of the best locations on the Gauteng map to see Goliath, Black, Squacco and Purple Herons.

Although the construction of roads, railways, pipelines and power lines in the area has reduced the floodplain to small dams, waterbirds still favour Marievale as a feeding and breeding place. Habitats of the sanctuary include shallow open water, reedbeds and grassland, so the variety of birds is immense.

If you are an experienced birder with a bit of luck you may even find Marsh Owl, African Grass-Owl, Red-chested Flufftail, Curlew Sandpiper, Sand Martin, Caspian Tern, Baillon's Crake, Black-winged Pratincole or even Black-tailed Godwit.
