

Annex 4 – Impacts on CITES Appendices and Checklist of Species / SpeciesPlus database resulting from adoption of proposed nomenclatural standard references for Fauna.  
(Revision 1: deleted reference to Wilson & Reeder 1993 as possible nomenclatural standard reference for *Puma concolor costaricensis*.)

Present situation (after CITES CoP17)			Proposed change in literature		Effect on CITES IF adopted		Notes & recommendations
Name in Appendices	Appe ndix	Checklist & Species+	Description of change	Reference	Name in Appendices	Checklist & Species+	
CHORDATA							
MAMMALIA							
ARTIODACTYLA							
BOVIDAE Antelopes, cattle, duikers, gazelles, goats, sheep, etc.							
<i>Ovis ammon</i> (Except the subspecies included in Appendix I)	II	<i>Ovis ammon</i> (Linnaeus 1758) with subspecies <i>collum</i> , <i>comosa</i> , <i>darwini</i> , <i>hodgsonii</i> , <i>karelini</i> , <i>nigrimontana</i> , <i>polii</i> , <i>severtzovi</i> [and <i>hodgsonii</i> and <i>nigrimontana</i> ]	Species split: <i>Ovis ammon</i> (with subspecies <i>ammon</i> , <i>collum</i> , <i>comosa</i> , <i>darwini</i> , <i>hodgsonii</i> , <i>karelini</i> , <i>nigrimontana</i> , <i>polii</i> , <i>severtzovi</i> ) split into nine species: <i>Ovis ammon ammon</i> (II) becomes a stand-alone species <i>Ovis ammon</i> (II); <i>Ovis ammon collum</i> (II) becomes <i>Ovis collum</i> (II), <i>Ovis ammon comosa</i> becomes <i>Ovis jubata</i> because Wilson & Reeder's use of <i>comosa</i> instead of the older name <i>jubata</i> , which Wilson & Reeder considered as preoccupied, has not held up and therefore the older name <i>jubata</i> should be used; <i>Ovis ammon darwini</i> (II) becomes <i>Ovis darwini</i> (II), <i>Ovis ammon hodgsonii</i> (I) see below; <i>Ovis ammon karelini</i> (II) becomes <i>Ovis karelini</i> (II); <i>Ovis ammon nigrimontana</i> (I) see below; <i>Ovis ammon polii</i> (II) becomes <i>Ovis polii</i> (II); <i>Ovis ammon severtzovi</i> (II) becomes <i>Ovis severtzovi</i> (II).	Valdez, R. & Weinberg, P.J. (2011) Species accounts 188-207 for <i>Ovis</i> spp., pp. 727-739 in Wilson, D.E., & Mittermeier, R.A. (eds.), Handbook of the Mammals of the World. Vol.2. Hoofed Mammals. Lynx Edicions, Barcelona. ISBN 978-84-96553-77-4.	Appendix II: <i>Ovis ammon</i> + <i>Ovis collum</i> + <i>Ovis karelini</i> + <i>Ovis jubata</i> + <i>Ovis darwini</i> + <i>Ovis polii</i> + <i>Ovis severtzovi</i> ----- [all names used previously in CITES as subspecies of <i>Ovis ammon</i> are included in the Checklist / Species+ as synonymized names]	<i>Ovis ammon</i> + <i>Ovis collum</i> + <i>Ovis karelini</i> + <i>Ovis jubata</i> + <i>Ovis darwini</i> + <i>Ovis polii</i> + <i>Ovis severtzovi</i> ----- [all names used previously in CITES as subspecies of <i>Ovis ammon</i> are included in the Checklist / Species+ as synonymized names]	The proposed change changes current subspecies to full species, changing the listing from 'a complex species with several subspecies in Appendix II, except two subspecies in Appendix I' to 'Seven species in Appendix II and two species in Appendix I'.

Present situation (after CITES CoP17)			Proposed change in literature		Effect on CITES IF adopted		Notes & recommendations
Name in Appendices	Appe ndix	Checklist & Species+	Description of change	Reference	Name in Appendices	Checklist & Species+	
<i>Ovis ammon hodgsonii</i>	I	<i>Ovis ammon hodgsonii</i>	Subspecies elevation to species rank, becomes <i>Ovis hodgsonii</i> (I)	Valdez, R. & Weinberg, P.J. (2011)	App. I: <i>Ovis hodgsonii</i>	<i>Ovis hodgsonii</i>	
<i>Ovis ammon nigrimontana</i>	I	<i>Ovis ammon nigrimontana</i>	Subspecies elevation to species rank, becomes <i>Ovis nigrimontana</i> (I)	Valdez, R. & Weinberg, P.J. (2011)	App. I: <i>Ovis nigrimontana</i>	<i>Ovis nigrimontana</i>	
<i>Ovis aries</i> (Except the subspecies included in Appendix I, the subspecies <i>O. a. isphahanica</i> , <i>O. a. laristanica</i> , <i>O. a. musimon</i> and <i>O. a. orientalis</i> which are not included in the Appendices, and the domesticated form <i>Ovis aries aries</i> which is not subject to the provisions of the Convention)	II	<i>Ovis aries</i> Linnaeus 1758 with subspecies <i>arkal</i> , <i>cycloceros</i> , <i>isphahanica</i> , <i>laristanica</i> , <i>musimon</i> , <i>ophion</i> , <i>orientalis</i> , <i>vignei</i>	Species split: <i>Ovis aries</i> (with subspecies <i>aries</i> , <i>arkal</i> , <i>cycloceros</i> , <i>isphahanica</i> , <i>laristanica</i> , <i>musimon</i> , <i>ophion</i> , <i>orientalis</i> , <i>vignei</i> ) split into nine full species by elevating subspecies to full species status: <i>Ovis aries aries</i> (not listed) becomes <i>Ovis aries</i> the domestic sheep (not listed) and loses its subspecies based on wild populations; <i>Ovis aries arkal</i> (II) becomes <i>Ovis cycloceros arkal</i> (II); <i>Ovis aries cycloceros</i> (II) is split to becomes <i>Ovis cycloceros cycloceros</i> (II) + <i>Ovis arabica</i> (II) + <i>Ovis bochariensis</i> (II) + <i>Ovis punjabensis</i> (II); <i>Ovis aries isphahanica</i> (not listed) becomes <i>Ovis isphahanica</i> (not listed); <i>Ovis aries laristanica</i> (not listed) becomes <i>Ovis laristanica</i> (not listed); <i>Ovis aries musimon</i> (not listed) is treated as part of the feral Mouflon populations associated with <i>Ovis gmelini</i> (not listed except population of Cyprus); <i>Ovis aries ophion</i> (App.I): see below; <i>Ovis aries orientalis</i> (not listed): <i>orientalis</i> is an invalid name based on a hybrid population in north-	Valdez, R. & Weinberg, P.J. (2011)	App.II: <i>Ovis cycloceros</i> + <i>Ovis arabica</i> + <i>Ovis bochariensis</i> + <i>Ovis punjabensis</i> ----- [all reference to <i>Ovis aries</i> , including subspecies <i>isphahanica</i> , <i>laristanica</i> , <i>musimon</i> , and <i>orientalis</i> , is removed from the Appendices]	<i>Ovis cycloceros</i> + <i>Ovis arabica</i> + <i>Ovis bochariensis</i> + <i>Ovis punjabensis</i> ----- [all names used previously in CITES, including as subspecies of <i>Ovis aries</i> or <i>Ovis orientalis</i> , are included in the Checklist / Species+ as synonymized names]	This proposed change to the nomenclature of the domestic sheep and its close (Mouflon and Urial) relatives will change the listing in the Appendices from "all sheep, mouflon and urial are in Appendix II, except two subspecies in Appendix I, and except 4 subspecies that are not listed, and except all domestic sheep" to "Four species of wild sheep (from Afghanistan, India, Iran, Kazakhstan, Oman, Pakistan, Tajikistan, Turkmenistan, and Uzbekistan) are listed in Appendix II, and one species plus a country population of another species, are listed in Appendix I."

SYNGNATHIFOR MES							
Syngnathidae Pipefishes Seahorses							
<i>Hippocampus</i> spp.	II	not listed	<i>Hippocampus pusillus</i> Fricke 2004 recognized as valid species	Lourie, S.A., Pollock, R.A. & Foster, S.J. (2016). A global revision of the Seahorses <i>Hippocampus</i> Rafinesque 1810 (Actinopterygii: Sygnathiformes): Taxonomy and biogeography with recommendations for further research. Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	Add <i>Hippocampus pusillus</i> Fricke 2004 as a valid species	Provisionally recommended by AC to add reference to Annex of Res Conf 12.11 and replace all 14 current <i>Hippocampus</i> references.
<i>Hippocampus</i> spp.	II	<i>Hippocampus alatus</i> Kuiter 2001	Synonymization of <i>H. alatus</i> under <i>H. spinosissimus</i> based on morphology	Lourie, S.A., Pollock, R.A. & Foster, S.J. (2016). Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. alatus</i> as synonym under <i>H. spinosissimus</i>	
<i>Hippocampus</i> spp.	II	<i>Hippocampus borboniensis</i> Duméril 1870	Synonymization of <i>H. borboniensis</i> under <i>H. kuda</i> based on morphology and genetics	Lourie, S.A., Pollock, R.A. & Foster, S.J. (2016). Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. borboniensis</i> as synonym under <i>H. kuda</i>	
<i>Hippocampus</i> spp.	II	<i>Hippocampus fuscus</i> Rüppell 1838	Synonymization of <i>H. fuscus</i> under <i>H. kuda</i> based on morphology and genetics	Lourie, S.A., Pollock, R.A. & Foster, S.J. (2016). Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. fuscus</i> as synonym under <i>H. kuda</i>	
<i>Hippocampus</i> spp.	II	<i>Hippocampus grandiceps</i> Kuiter 2001	Synonymization of <i>H. grandiceps</i> under <i>H. angustus</i> based on morphology	Lourie, S.A., Pollock, R.A. & Foster, S.J. (2016).	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. grandiceps</i> as synonym under <i>H. angustus</i>	

Present situation (after CITES CoP17)			Proposed change in literature		Effect on CITES IF adopted		Notes & recommendations

				Zootaxa 4146(1): 1-66.			
<i>Hippocampus</i> spp.	II	<i>Hippocampus hendriki</i> Kuiter 2001	Synonymization of <i>H. hendriki</i> under <i>H. angustus</i> based on morphology	Lourie, S.A., Polom, R.A. & Foster, S.J. (2016). Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. hendriki</i> as synonym under <i>H. angustus</i>	
<i>Hippocampus</i> spp.	II	<i>Hippocampus montebelloensis</i> Kuiter 2001	Synonymization of <i>H. montebelloensis</i> under <i>H. zebra</i> based on morphology	Lourie, S.A., Polom, R.A. & Foster, S.J. (2016). Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. montebelloensis</i> as synonym under <i>H. zebra</i>	
<i>Hippocampus</i> spp.	II	<i>Hippocampus multispinus</i> Kuiter 2001	Synonymization of <i>H. multispinus</i> under <i>H. angustus</i> based on morphology	Lourie, S.A., Polom, R.A. & Foster, S.J. (2016). Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. multispinus</i> as synonym under <i>H. angustus</i>	
<i>Hippocampus</i> spp.	II	<i>Hippocampus procerus</i> Kuiter 2001	Synonymization of <i>H. procerus</i> under <i>H. whitei</i> based on morphology and genetics	Lourie, S.A., Polom, R.A. & Foster, S.J. (2016). Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. procerus</i> as synonym under <i>H. whitei</i>	
<i>Hippocampus</i> spp.	II	<i>Hippocampus queenslandicus</i> Horne 2001	Synonymization of <i>H. queenslandicus</i> under <i>H. spinosissimus</i> based on morphology	Lourie, S.A., Polom, R.A. & Foster, S.J. (2016). Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. queenslandicus</i> as synonym under <i>H. spinosissimus</i>	
<i>Hippocampus</i> spp.	II	<i>Hippocampus semispinosus</i> Kuiter 2001	Synonymization of <i>H. semispinosus</i> under <i>H. spinosissimus</i> based on morphology	Lourie, S.A., Polom, R.A. & Foster, S.J. (2016). Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. semispinosus</i> as synonym under <i>H. spinosissimus</i>	
<i>Hippocampus</i> spp.	II	<i>Hippocampus severnsi</i>	Synonymization of <i>H. severnsi</i> under <i>H. pontohi</i> based on morphology	Lourie, S.A., Polom, R.A. & Foster, S.J. (2016). Zootaxa 4146(1): 1-66.	None: part of <i>Hippocampus</i> spp. [II]	list <i>H. severnsi</i> as synonym under <i>H. pontohi</i>	

Present situation (after CITES CoP17)			Proposed change in literature		Effect on CITES IF adopted		Notes & recommendations
