## The UAE Experience in eCITES

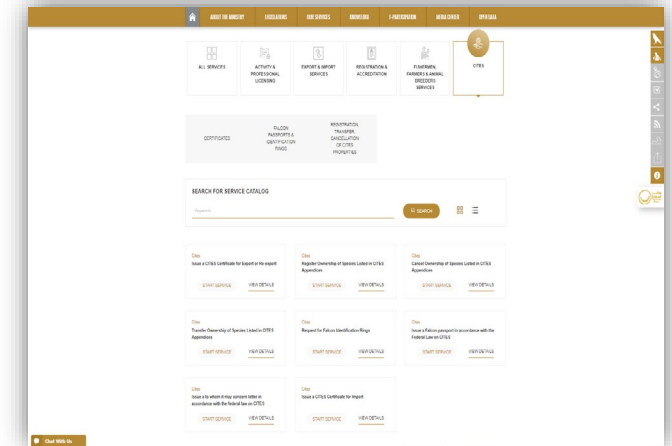

21 Novembre 2022

## Introduction

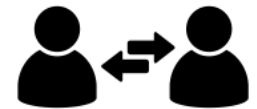

- The UAE has automated CITES services since 2002.
- The UAE launched E-permit (Digital) in February 2021.
- The automated system enhanced the following:
  - Productivity and community happiness.
  - Accuracy and precision.
  - Security and public health.
  - Conservation of environment.

## Unique features of eCITES

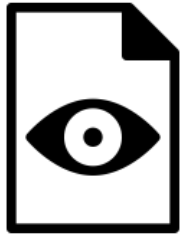

- Integrated systems:
  - Federal Authority for Identity and Citizenship.
  - Online payment portal (Ministry of Finance).
  - Digital Certificates and Permits Hub.
- Connecting all ports in country with CITES system.
- Regulate the national and international trade of CITES listed species
  - Balance of the customer
- UAE VERIFY digital platform powered by Block chain technology
  - Enables instant verification of Digital Document.

## Why eCITES

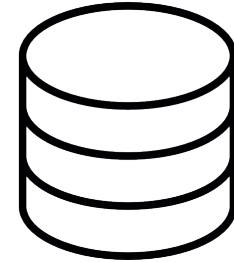

Facilitating the  
document reading

Verification of permits  
through online

Issuing a annual  
reports in simple way

Creating database for  
futures analyses and study

The UAE is ready to support and share the knowledge of eCITES with other parties.

Thank you
