The **appearance of the permit** electronically Note: The permit is also printed in the old form

challenges

- Incomplete legislation and local laws
- There is no system for the Environment Authority at the present time and we are currently working on it
- They are currently linked to another system (customs declaration system) and does not meet all the requirements of the authority.
- Overlap in some terms between the authorities such as the Ministry of Agriculture, Fisheries and Water Resources
- Fraud possibility.
