

**CONVENCIÓN SOBRE EL COMERCIO INTERNACIONAL DE ESPECIES
AMENAZADAS DE FAUNA Y FLORA SILVESTRES**

Sesiones conjuntas de la 31^a reunión del Comité de Fauna y
de la 25^a reunión del Comité de Flora
Ginebra (Suiza), 17 de julio de 2020

Cuestiones estratégicas

VISIÓN ESTRATÉGICA DE LA CITES

1. Este documento ha sido preparado por la Secretaría.

Antecedentes

2. En su 18^a reunión (CoP18, Ginebra, 2019), la Conferencia de las Partes adoptó las Decisiones 18.23 a 18.26 sobre *Visión estratégica de la CITES*, cuyo texto es el siguiente:

Dirigida a la Secretaría

18.24 La Secretaría deberá:

- a) realizar un análisis comparativo a fin de ilustrar los vínculos entre la Visión Estratégica de la CITES: 2021-2030 adoptada y las metas de la Agenda 2030 para el Desarrollo Sostenible y, una vez adoptado, el marco de la diversidad biológica después de 2020, y presentar su análisis al Comité Permanente para su información; y
- b) examinar los objetivos de la Visión Estratégica de la CITES 2021-2030 en comparación con las actuales resoluciones y decisiones de la CITES, y señalar a la atención del Comité de Fauna y de Flora, según proceda, y del Comité Permanente aquellos casos (si los hubiere) en los que las políticas actuales de la CITES, tal como se encuentran en las resoluciones y decisiones, no parecen prever actividades en apoyo de la consecución de algún objetivo de la Visión Estratégica de la CITES.

Dirigida a los Comités de Fauna y de Flora

18.25 Los Comités de Fauna y de Flora deberán analizar el examen preparado por la Secretaría en virtud del párrafo b) de la Decisión 18.24 y presentar sus recomendaciones al Comité Permanente.

Dirigida al Comité Permanente

18.26 El Comité Permanente deberá:

- a) en consulta con las Presidencias de los Comités de Fauna y de Flora, y tomando en consideración la información presentada por las Partes a través del Informe de aplicación, así como el análisis comparativo preparado por la Secretaría en virtud del párrafo a) de la Decisión 18.24, formular recomendaciones sobre los indicadores de los progresos nuevos o revisados para incluirlas en la Visión Estratégica de la CITES: 2021-2030, para su consideración por la 19^a reunión de la Conferencia de las Partes;

- b) examinar la información proporcionada por la Secretaría en virtud del párrafo 2 de la Decisión 18.24, así como las opiniones de los Comités de Fauna y de Flora, y formular recomendaciones para la 19^a reunión de la Conferencia de las Partes.
3. De conformidad con el párrafo b) de la Decisión 18.24, la Secretaría ha preparado una correlación entre los objetivos de la Visión Estratégica de la CITES y las resoluciones y decisiones de la CITES en vigor, que figura en el Anexo 1 del presente documento.
4. Muchas resoluciones y decisiones se pudieron correlacionar con varios objetivos diferentes de la Visión Estratégica. A fin de evitar que el resultado obtenido careciera del enfoque suficiente, en este ejercicio, la Secretaría correlacionó una resolución o una decisión con un objetivo únicamente cuando las actividades generales propuestas en esa resolución o decisión apoyaban de manera directa el objetivo.

Resultados

5. Se consideró que los Objetivos 1.1 a 1.3, en particular, están especialmente interconectados y resulta difícil separarlos. Para estos objetivos, la Secretaría observó una progresión en la descripción de los objetivos, en la que el Objetivo 1.1 se centra en la transposición de las obligaciones dimanantes de la Convención por las Partes en leyes nacionales; el Objetivo 1.2 se centra en las instituciones nacionales necesarias para aplicar la Convención; y el Objetivo 1.3 se centra más detalladamente en los instrumentos, procedimientos y orientaciones necesarios para la interpretación y aplicación de la Convención en el plano nacional. Las resoluciones y decisiones se correlacionaron con los Objetivos 1.1 a 1.3 teniendo presente este razonamiento. El Objetivo 1.2 se correlacionó únicamente con las resoluciones que se centran en las Autoridades Administrativas y Científicas, la Resolución Conf. 10.3 sobre *Designación y función de la Autoridad Científica* y la Resolución Conf. 18.6 sobre *Designación y funciones de las Autoridades Administrativas*. La Secretaría observa que no hay una resolución que se centre especialmente en la función de los puntos focales para la aplicación, pero que el párrafo 12 de la Resolución Conf. 11.3 (Rev. CoP18) sobre *Observancia y aplicación* se relaciona con la designación de los puntos focales para la aplicación.
6. En cuanto a las resoluciones sobre especies específicas, no se encontró un objetivo obvio que pudiera abarcárlas en su conjunto. La Secretaría observa que algunas resoluciones sobre especies específicas se centran más en las medidas de conservación, la gestión del comercio y la recopilación y el intercambio de información sobre la especie concernida; por lo tanto, estas se correlacionaron con el Objetivo 2.5. Otras resoluciones sobre especies específicas se centran más en la observancia y el comercio ilegal; por lo tanto, se las correlacionó con el Objetivo 3.5.
7. Como resultado del ejercicio de correlación, la Secretaría observa que algunas resoluciones y decisiones no se correlacionan fácilmente con un objetivo y viceversa; es decir, algunos objetivos no parecen tener una resolución o decisión relacionada.
- a) Las siguientes resoluciones y decisiones no se correlacionaron con los objetivos de la Visión Estratégica:

Resolución Conf. 4.6 (Rev. CoP18) sobre *Presentación de proyectos de resolución, proyectos de decisión y de otros documentos para las reuniones de la Conferencia de las Partes*
 Resolución Conf. 18.2 sobre *Establecimiento de comités*

Decisión 18.1 sobre *Reglamento*
 Decisiones 18.2 a 18.3 sobre *Funcionamiento de los Comités*
 Decisión 18.30 sobre *Estrategia lingüística para la Convención*

Las resoluciones y decisiones antes mencionadas corresponden a los procedimientos institucionales y de las reuniones que resultan esenciales para el funcionamiento de los órganos rectores de la Convención. La Secretaría observa que la Visión Estratégica se centra principalmente en los compromisos de las Partes destinados a cumplir el objetivo de la CITES de velar por que el comercio internacional de especies silvestres no ponga en peligro la supervivencia de las especies de fauna y flora silvestres y menos en los procedimientos internos y los órganos rectores de la Convención.

- b) Los Objetivos 2.2 y 2.3 (véase a continuación) pudieron correlacionarse únicamente con párrafos de diferentes resoluciones y decisiones y no se reflejan en ninguna resolución o decisión específica que se ocupe por completo del intercambio de información o la disposición de información suficiente para la observancia. En concreto, los llamamientos a elaborar o compartir información e instrumentos están

distribuidos en diferentes párrafos de varias resoluciones y decisiones y no hay ninguna resolución o decisión que aborde en gran medida o exclusivamente la cuestión del intercambio de información. Del mismo modo, tampoco hay ninguna resolución o decisión específica que se centre en gran medida o exclusivamente en la necesidad de disponer de información suficiente para hacer cumplir la Convención.

Objetivo 2.2 – Las Partes cooperarán en el intercambio de información y herramientas pertinentes para la aplicación de la CITES.

Objetivo 2.3 – Las Partes dispondrán de información suficiente para hacer cumplir la Convención.

Como se le encarga en el párrafo 4 d) de la Resolución Conf. 4.6 (Rev. CoP18) sobre *Presentación de proyectos de resolución, proyectos de decisión y de otros documentos para las reuniones de la Conferencia de las Partes*, la Secretaría ha recopilado una lista de los requisitos para la presentación de informes, que se encuentra en el Anexo 2 del presente documento. Ante la falta de una definición de los “requisitos para la presentación de informes”, la Secretaría ha incluido todas las referencias que figuran en la Convención y las resoluciones y decisiones en las que se solicita a las Partes que envíen informes o información a la Secretaría o a otras Partes. La lista se divide en tres categorías: 1) requisitos para la presentación de informes y solicitudes de información que figuran en la Convención, 2) requisitos para la presentación de informes y solicitudes de información que figuran en resoluciones, y 3) requisitos para la presentación de informes y solicitudes de información que figuran decisiones. Los llamamientos a compartir información e instrumentos señalados en esa lista de requisitos para la presentación de informes se pueden utilizar para identificar los párrafos específicos de las resoluciones y decisiones que resultan pertinentes para los Objetivos 2.2 y 2.3. En lugar de enumerar los párrafos específicos de las resoluciones y decisiones que se podrían correlacionar con los Objetivos 2.2 y 2.3, la Secretaría ha incluido la lista de los requisitos para la presentación de informes para aquellos que estén interesados en conocer en qué párrafos específicos de las resoluciones y decisiones se solicita el intercambio de información.

c) Además, algunos objetivos se han correlacionado solo con unas pocas decisiones o resoluciones:

Objetivo 3.7 – Se priorizarán y coordinarán las inversiones en el fomento de capacidad de la CITES, y se supervisará su éxito para garantizar una mejora gradual a lo largo del tiempo.

Objetivo 3.8 – Las Partes aprovecharán plenamente los nuevos adelantos tecnológicos para mejorar la aplicación y la observancia efectivas de la Convención.

La Secretaría observa que algunos objetivos, tales como el Objetivo 3.8 sobre nuevos adelantos, suelen estar relacionados únicamente con decisiones, más que con resoluciones. Esto refleja la práctica que sigue la Conferencia de las Partes de introducir las cuestiones nuevas en decisiones que se aplicarán en los períodos entre las reuniones de la Conferencia de las Partes. Una vez que un conjunto de decisiones ha sido renovado durante varios períodos entre reuniones, las lecciones aprendidas suelen volcarse luego en resoluciones. En relación con los Objetivos 3.7 y 3.8, se está trabajando para elaborar un marco de fomento de la capacidad. Las Decisiones 18.39 a 18.46 abordan el Objetivo 3.7; y el Objetivo 3.8 se aborda mediante las Decisiones 18.125 a 18.128 sobre *Sistemas electrónicos y tecnologías de la información*, en las que, entre otras cosas, se solicita que se desarrollen sistemas de emisión electrónica de permisos, lo que puede conducir a enmiendas de la Resolución Conf. 12.3 (Rev. CoP18) sobre *Permisos y certificados*.

Recomendaciones

8. Se invita a los Comités a señalar aquellos objetivos (en su caso) en que las políticas actuales de la CITES que figuran en las resoluciones y decisiones no parecen abordar actividades que apoyen la consecución de ese objetivo de la *Visión estratégica de la CITES* y que formulen recomendaciones al Comité Permanente sobre la correlación entre la *Visión Estratégica de la CITES 2021-2030* y las resoluciones y decisiones de la CITES en vigor que figura en el Anexo 1 del presente documento.

REPORTING REQUIREMENTS AND SUBMISSION OF INFORMATION

In accordance with paragraph 4 d) of Resolution Conf. 4.6 (Rev. CoP18) on *Submission of draft resolutions, draft decisions and other documents for meetings of the Conference of the Parties*, the Secretariat has prepared a list of reporting requirements. In the absence of a definition of “reporting requirements”, the Secretariat has included all references in the Convention, Resolutions and Decisions that request Parties to send reports or information to the Secretariat or other Parties. The list is divided in three categories: 1) reporting requirements and request for information that can be found in the Convention; 2) reporting requirements and request for information that can be found in Resolutions; and 3) reporting requirements and request for information that can be found in Decision.

Reporting requirements related to enforcement are highlighted in dark grey.
