

CONVENTION SUR LE COMMERCE INTERNATIONAL DES ESPÈCES
DE FAUNE ET DE FLORE SAUVAGES MENACÉES D'EXTINCTION

Vingt-troisième session du Comité pour les plantes
Genève (Suisse), 22 et 24-27 juillet 2017

Questions spécifiques aux espèces

Maintien des annexes

Examen périodique des Annexes

VUE D'ENSEMBLE DES ESPÈCES DANS L'EXAMEN PÉRIODIQUE

1. Le présent document a été préparé par le Secrétariat.
2. Dans la résolution Conf. 14.8 (Rev. CoP17), *Examen périodique des espèces inscrites aux Annexes I et II*, la Conférence des Parties décide d'un processus et de lignes directrices selon lesquels le Comité pour les animaux et le Comité pour les plantes entreprennent l'examen périodique des espèces animales et végétales inscrites aux annexes CITES, et dans le paragraphe 6:

DONNE INSTRUCTION au Secrétariat de tenir un registre des espèces sélectionnées pour un examen périodique, y compris des espèces ayant fait l'objet ou faisant actuellement l'objet d'un examen, dates des documents pertinents du comité, recommandations des examens, et tout rapport et documents liés.

3. L'annexe 1 contient un registre des espèces animales sélectionnées pour l'examen entre la 13^e et la 15^e sessions de la Conférence des Parties (CoP13, Bangkok, 2004 et CoP15, Doha, 2010).
4. Le registre des espèces animales à examiner entre la 15^e et la 17^e sessions de la Conférence des Parties (CoP17, Johannesburg, 2016) figure en annexe 2. Le registre des espèces de plantes à examiner entre la 15^e et la 17^e sessions de la Conférence des Parties (CoP17, Johannesburg, 2016) figure en annexe 2.
5. À sa 21^e session (PC21; Veracruz, mai 2014), le Comité pour les plantes a examiné les registres des espèces sélectionnées pour un examen périodique et formulé plusieurs recommandations qui sont dûment reprises dans les tableaux en annexes 1 et 2.
6. Une liste d'abréviations de la Liste rouge des espèces menacées de l'UICN figure dans l'annexe 3 et les codes ISO des pays figurent dans l'annexe 4. Les deux périodes d'examen sont résumées ci-dessous:

Période d'examen	Résultat du processus d'examen périodique	Amendements résultants aux annexes
CoP13-CoP15: <i>106 espèces sélectionnées pour l'examen</i>	79 examens d'espèces ont été achevés.	1 espèce a été transférée de l'Annexe II to Annexe I 37 taxons ont été maintenus à l'Annexe I 27 taxons ont été maintenus à l'Annexe II 1 espèce a été supprimée de l'Annexe I 13 taxons/espèces ont été supprimés de l'Annexe II
	23 examens d'espèces ont été arrêtés car les inscriptions ont été modifiées avant que l'examen périodique ne soit achevé	1 espèce a été supprimée de l'Annexe I 19 espèces ont été supprimées de l'Annexe II 1 espèce a été transférée de l'Annexe I à l'Annexe II 2 examens d'espèces ont été arrêtés sans changements
	1 examen d'espèce est en cours ¹	
	2 réexamens d'espèces dans la période CoP15-CoP17 de l'examen périodique (examineur requis)	(voir annexe 2)
CoP15-CoP17: <i>8 espèces sélectionnées pour l'examen</i>	3 examens d'espèces ont été achevés	1 espèce est maintenue à l'Annexe I 1 espèce est maintenue à l'Annexe II 1 espèce à supprimer de l'Annexe II
	1 examen d'espèce a été arrêté car l'inscription a été modifiée avant que l'examen périodique ne soit achevé 1 examen d'espèce a été arrêté – Espèce supprimée de l'examen	1 espèce a été supprimée de l'Annexe II
	3 examens d'espèces sont en cours	

7. Les registres des espèces sélectionnées pour l'examen périodique, figurant dans les annexes 1 à 3, suivent la même présentation que les soumissions précédentes du Secrétariat. Cependant, on ne sait pas clairement s'il est nécessaire de tenir à jour les champs de données contenant des informations qui pourraient varier avec le temps (état de conservation; aire de répartition) et le Secrétariat apprécierait des orientations à ce sujet. En outre, dans ses commentaires sur le document [CoP17 Doc. 82.1](#), le Secrétariat a indiqué que la tenue des registres de l'examen périodique est de plus en plus exigeante. Il serait préférable d'élaborer une base de données en ligne, gérable et consultable, sur l'examen périodique. Le Secrétariat n'a pas de fonds administratifs à consacrer à ces activités et un financement externe serait nécessaire pour établir et maintenir une base de données sur l'examen périodique. Le coût pourrait être de l'ordre de 50 000 USD pour la période séparant la CoP17 de la CoP18.

¹ À sa 18^e session, le Comité pour les plantes a maintenu un groupe de travail intersessions sur *Aloe* spp. et *Euphorbia* spp. – inscrites à l'Annexe I – ainsi que sur *Didiereaceae* spp. Les examens requis aux termes des dispositions de la résolution Conf. 14.8 (Rev. CoP16) ont été présentés dans l'annexe 5 du document [PC18 Doc. 16.1.1](#), mais il n'est pas certain qu'il y ait assez d'informations pour que le Comité décide si les critères établis par la résolution Conf. 9.24 (Rev. CoP16) sont ou non remplis. À sa 21^e session, le Comité pour les plantes a reconnu qu'il manque d'informations pour déterminer si les 17 espèces d'*Aloe* spp. inscrites à l'Annexe I ; les 17 espèces de *Didiereaceae* spp. inscrites à l'Annexe II et les 10 espèces d'*Euphorbia* spp. inscrites à l'Annexe I sélectionnées pour la période d'examen CoP13-CoP15 sont correctement inscrites aux Annexes. Madagascar a été prié de soumettre une version révisée et mise à jour de l'annexe 5 au document [PC18 Doc. 16.1.1](#) à la 22^e session du Comité pour les plantes, version qui devra inclure des recommandations pour une liste pertinente des espèces avec sa traduction. À la 22^e session du Comité pour les plantes, Madagascar a présenté le document [PC22 Doc. 20.3.1](#). Tout en notant que *Didieraceae* n'est pas endémique de Madagascar, les orateurs ont soutenu la conclusion de Madagascar, proposant de ne faire aucune modification à l'inscription actuelle de ces espèces. L'examen d'*Aloe helenae* de Madagascar est en cours (voir annexe 1).

Recommandations:

8. Le Comité pour les animaux est invité à :

- a) commenter les observations du Secrétariat dans le paragraphe 7; et
- b) prendre note de cette information et décider des nouvelles mesures à prendre en s'appuyant sur les progrès signalés par les Parties concernant les examens en cours.

Periodic Review of the Appendices – Plants

REVIEW PERIOD BETWEEN COP13 (2004) AND COP15 (2010)^{2 3}

Taxon; CITES Appendix	Meeting when the species were selected [paragraph b)]	Date the Parties were informed [paragraph e)]	Date the Standing Committee was informed [paragraph h)]	Document containing the review report [paragraph i)]	Recommen- dation [paragraph j)]	Range States requested to submit proposal [paragraph j (ii)]	<u>IUCN Red List category</u> ⁴ Range States and territories ^{5 6}	Status of the review ⁷ , reviewing Party, Notes

² In Resolution Conf. 14.8 (Rev. CoP17), the Conference of the Parties agreed that the Committee should establish a schedule for the Periodic Review of the Appendices and identify a list of taxa they propose to review during the next two intersessional periods between meetings of the CoP. The Plants Committee, however, made the current selection of species for review under the guidelines for conducting the periodic review adopted by the Standing Committee at its 51st meeting (Bangkok, October 2004).

³ Steps refer to the process laid out in Resolution Conf. 14.8 (Rev. CoP17).

⁴ The IUCN Red List of Threatened Species, 2014.1, downloaded in June 2015, <http://www.iucnredlist.org/search>

⁵ Range states and territories as per CITES Species +, 2015, <http://www.speciesplus.net/>

⁶ ISO countries codes used as abbreviations, see Annex 4 or http://www.iso.org/iso/country_codes/iso_3166_code_lists/country_names_and_code_elements.htm

⁷ As per document PC21 Doc. 19.1, it was agreed that the status of the review should be ascribed to one of the four categories below:

- Review ongoing [species still being considered under paragraphs e) – k) of the Resolution Conf. 14.8 (Rev. CoP15)].
- Review completed (actions under paragraphs j) or k) of the Resolution fully undertaken).
- Review stopped (paragraphs j) or k) of the Resolution not completed and no further action planned).
- Species deleted from review (no volunteer offered to undertake a review, paragraph e) of the Resolution).

Didiereaceae spp. (17 species) PC22 recommended to retain 11 species in Appendix II PC22 Com.2								
<i>Alluaudia ascendens</i> (II) = <i>Didierea ascendens</i> Drake	PC15 (May 2005)	19 July 2005 Notification No. 2005/037	2 June 2007 (SC55 Doc. 18)	PC18 Doc. 16.1.1 Annex 5	PC18	---	n/a MG	Review completed. ¹ MG submitted PC22 Doc. 20.3.1
<i>Alluaudia comosa</i> (II) = <i>Didierea comosa</i> Drake	PC15 (May 2005)	19 July 2005 Notification No. 2005/037	2 June 2007 (SC55 Doc. 18)	PC18 Doc. 16.1.1 Annex 5	PC18	---	n/a MG	Review completed. ¹ MG submitted PC22 Doc. 20.3.1

¹ At PC18, the Committee maintained an intersessional working group on *Aloe* spp. and *Euphorbia* spp. – both listed in Appendix I – and Didiereaceae spp. The reviews required under the provisions of the Resolution Conf. 14.8 (Rev. CoP17) were presented in document [PC18 Doc. 16.1.1, Annex 5](#), but it is not clear if there is enough information for the Committee to decide whether or not the listing criteria established by the Resolution Conf. 9.24 (Rev. CoP16) have been met. The Plants Committee, at its 21st meeting, agreed that there is insufficient information to determine if the 17 species of *Aloe* spp. in Appendix I; 17 species of Didiereaceae spp. in Appendix II and 10 species of *Euphorbia* spp. in Appendix I that were selected for the review period CoP13-CoP15 are appropriately listed in the Appendices. Madagascar was requested to submit a revised and updated version of Annex 5 of document [PC18 Doc. 16.1.1](#) to PC22, which should contain recommendations for the appropriate listing of the species and which should be translated. At PC22, Madagascar introduced document [PC22 Doc. 20.3.1](#). While noting that Didiereaceae was not endemic to Madagascar, speakers supported the conclusion reached by Madagascar, proposing no change to the current listing of these species. The review of *Aloe helenae* from Madagascar is ongoing (see Annex 1).

Taxon; CITES Appendix	Meeting when the species were selected [paragraph b)]	Date the Parties were informed [paragraph e)]	Date the Standing Committee was informed [paragraph h)]	Document containing the review report [paragraph i)]	Recommendation [paragraph j)]	Range States requested to submit proposal [paragraph j (ii)]	IUCN Red List category ⁴ Range States and territories ^{5 6}	Status of the review ⁷ , reviewing Party, Notes

Periodic Review of the Appendices – Plants

REVIEW PERIOD BETWEEN COP15 (2010) AND COP17 (2016)^{2122 3}

Taxon; CITES Appendix	Meeting when the species were selected [paragraph b)] ²	Date the Parties were informed [paragraph e)]	Date the Standing Committee was informed [paragraph f)]	Document containing the review report [paragraph i)]	Recommendati on [paragraph j)]	Range States requested to submit proposal [paragraph j (ii)]	IUCN category ⁴ and Range States and territories ^{5 6}	Status of the review, ⁷ reviewing Party, Notes and Proposals
Apocynaceae								
<i>Pachypodium brevicaule</i> (II)	PC19 (April 2011)	21 September 2011 Notification No. 2011/038	27 July 2012		PC 22 recommended to maintain in App. II		n/a MG	Review completed MG submitted PC22 Doc. 20.3.2
Crassulaceae								
<i>Dudleya stolonifera</i>	PC19 (April 2011)	21 September 2011 Notification No. 2011/038	27 July 2012	CoP16 Prop.57			n/a US	Review stopped CoP16 Prop.57 (US) CoP16 deleted from Appendix II (2013)
Portulacaceae								

² In Resolution Conf. 14.8 (Rev. CoP17), the Conference of the Parties agreed that the Committee should establish a schedule for the Periodic Review of the Appendices and identify a list of taxa they propose to review during the next two intersessional periods between meetings of the CoP. The Plants Committee, however, made the current selection of species for review under the guidelines for conducting the periodic review adopted by the Standing Committee at its 51st meeting (Bangkok, October 2004).

³ Steps refer to the process laid out in Resolution Conf. 14.8 (Rev. CoP17).

⁴ The IUCN Red List of Threatened Species, 2014.1, downloaded in June 2015, <http://www.iucnredlist.org/search>

⁵ Range states and territories as per CITES Species +, 2015, <http://www.speciesplus.net/>

⁶ ISO countries codes used as abbreviations, see Annex4 or http://www.iso.org/iso/country_codes/iso_3166_code_lists/country_names_and_code_elements.htm

⁷ As per document PC21 Doc. 19.1, it was agreed that the status of the review should be ascribed to one of the four categories below :

- Review ongoing [species still being considered under paragraphs e) – k) of the Resolution Conf. 14.8 (Rev. CoP15)].
- Review completed (actions under paragraphs j) or k) of the Resolution fully undertaken).
- Review stopped (paragraphs j) or k) of the Resolution not completed and no further action planned).
- Species deleted from review (no volunteer offered to undertake a review, paragraph e) of the Resolution).

Taxon; CITES Appendix	Meeting when the species were selected [paragraph b)] ²	Date the Parties were informed [paragraph e)]	Date the Standing Committee was informed [paragraph f)]	Document containing the review report [paragraph i)]	Recommendati on [paragraph j)]	Range States requested to submit proposal [paragraph j (ii)]	IUCN category ⁴ and Range States and territories ^{5 6}	Status of the review, ⁷ reviewing Party, Notes and Proposals

Liste des abréviations

Catégories de la Liste rouge de l'UICN :

n/a – Le taxon n'a pas encore été évalué pour la Liste rouge de l'UICN

Catégories de l'UICN:

- Éteint (EX) – Il ne fait aucun doute que le dernier individu est mort.
- Éteint à l'état sauvage (EW) – le taxon ne survit qu'en captivité; ou en tant que population naturalisée, en dehors de son ancienne aire de répartition.
- En danger critique (CR) – Le risque d'extinction à l'état sauvage est extrêmement élevé.
- En danger (EN) – Le risque d'extinction à l'état sauvage est très élevé.
- Vulnérable (VU) – Le risque d'extinction à l'état sauvage est élevé.
- Quasi menacé (NT) – Il est probable que le taxon sera menacé dans un proche avenir.
- Préoccupation mineure (LC) – Le risque le plus faible. Le taxon ne remplit pas les critères des catégories menacées. Dans cette catégorie sont inclus les taxons largement répandus et abondants.
- Données insuffisantes (DD) – Il n'y a pas assez de données pour évaluer le risque d'extinction.
- Non évalué (NE) – Le taxon n'a pas encore été confronté aux critères.

Critères de l'UICN pour EN DANGER CRITIQUE, EN DANGER et VULNÉRABLE:

Le système de numérotation des critères et sous-critères est hiérarchique et alphanumérique. Pour avoir d'autres informations, consultez http://www.iucnredlist.org/static/categories_criteria_3_1
