

NOTIFICATION TO THE PARTIES

No. 2016/006

Geneva, 5 February 2016

CONCERNING:

New implementation report format (formerly known as biennial report)

- 1. At its 66th meeting (Geneva, January 2016), the Standing Committee adopted a new implementation report format that is not subject to compliance procedures. The last biennial report for 2013-2014 was due on 31 October 2015. To reflect the three year cycle between meetings of the Conference of the Parties, the implementation report covering the period 2015-2017 is due on 31 October 2018.
- 2. Subject to the availability of external funds, the Secretariat will make a version of the implementation report available using the CITES Online Reporting System by 31 October 2017 (at least a year in advance of the deadline set for submission of reports to the 18th Conference of the Parties).
- 3. The new implementation report format can be found in the Annex to this Notification.
- 4. This Notification replaces Notification to the Parties No. 2005/035 of 6 July 2005.

Annex

Implementation report format

The format below follows the structure of the *CITES Strategic Vision: 2008-2020* and aims to collect information to enable the Strategic Vision indicators to be implemented.

CITES vision statement

Conserve biodiversity and contribute to its sustainable use by ensuring that no species of wild fauna or flora becomes or remains subject to unsustainable exploitation through international trade, thereby contributing to the significant reduction of the rate of biodiversity loss and making a significant contribution towards achieving the relevant Aichi Biodiversity Targets.

Article VIII, paragraph 7 (b), of the Convention requires each Party to submit to the CITES Secretariat a report on legislative, regulatory and administrative measures taken to enforce the provisions of the Convention.

The report format allows Parties to present information in a standard manner, so that it can be easily collated, with three main objectives:

- i) To enable monitoring of the implementation and effectiveness of the Convention;
- ii) To facilitate the identification of major achievements, significant developments, or trends, gaps or problems and possible solutions; and
- iii) Provide a basis for substantive and procedural decision-making by the Conference of the Parties and various subsidiary bodies.

Information on the nature and extent of CITES trade should be incorporated into the annual report [Article VIII paragraph 7 (a)], whereas the report provided under Article VIII paragraph 7 (b) should focus on measures taken to implement the Convention.

The report should cover the period indicated in <u>Resolution Conf. 11.17 (Rev. CoP16)</u> which urges that the report should be submitted to the Secretariat one year before each meeting of the Conference of the Parties (CoP). The reason for setting the report to be due a year in advance of the following CoP is to allow information to be collated so it can be considered by the Standing Committee in advance of CoP, and enable publication of the Strategic Vision indicators in advance of CoP.

Reports should be prepared in one of the three working languages of the Convention (English, French, Spanish).

Parties are *strongly* encouraged to prepare and submit their reports in electronic form. This will facilitate timely integration of information from Parties into publication of the Strategic Vision Indicators. If reports are only provided in hard copy, resources will be needed at the Secretariat to make an electronic copy, and this is not good use of Secretariat resources.

The completed report should be sent to:

CITES Secretariat International Environment House Chemin des Anémones 11-13 CH-1219 Châtelaine-Geneva Switzerland

Email: info@cites.org Tel: +41-(0)22-917-81-39/40 Fax: +41-(0)22-797-34-17
